FACTORY, OFFICE AND SALESROOM, Nos. 98, 100, 102 Randolph St., DETROIT, MICH.
OREGON

The great, new and flourishing State of Oregon offers to the immigrant more substantial inducements for settlement than any of the Eastern States, and to ignorance of its vast resources, the productive quality of its soil and its mild, delightful climate may be attributed the fact that so much of its area is still without cultivation. It is being rapidly filled up now, and a decade hence the value of its land and products will have more than doubled.

Washington Territory

Lying next to Oregon, is also one of the most prolific sections in the Great Northwest, and it is a matter of no small significance that its yield of Wheat, Barley, Flax and Hops for 1885 was nearly double what it was in 1884, and that the products brought a much higher price.

Oregon and Washington are the only two sections in the United States which produced full crops for 1885. See Government statistics.

It Will Pay Every Progressive Farmer

To examine into the advantages of Oregon and Washington, and even if you have no thought of changing your home you should write to one of the undersigned for information, as you should not be ignorant of what this section can produce.

The Oregon Railway & Navigation Company furnishes facilities for reaching all portions of the country, and offers special low rates to immigrants. Write to

GEN. T. R. TANNATT, or A. L. MAXWELL,
General Land Agent, Acting Gen'l Pass. and Ticket Agent.
FARMINGTON, W. T. PORTLAND, OREGON.

The Pacific Coast Needs People to Cultivate Nature's Bounty.
