ALPENA GAS COMPANY
Stability and Permanency

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

R. L. POLK & CO.'S
1914
ALPENA CITY DIRECTORY

MISCELLANEOUS INFORMATION

HOUSE AND STREET DIRECTORY.
The streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant householder.

The profession, business, etc., of individuals and firms are only given at their respective places of business.

Chisholm street is the dividing line for all streets running North and South, and Second avenue for all streets running East and West. The system adopted is the same as used in Philadelphia and other large cities, known as the "decimal" system—one hundred numbers being allowed for each block. In cases where vacant lots, etc., occur, the usual number have been allotted them.

Note—Numbers in parentheses, viz: (1246), denote that the houses are incorrectly numbered, but their placement on the guide between the intersecting streets is correct. Double numbers, as 610 (910), denote that the number in parenthesis is on the house, but the number preceding is correct.
